Intro

This is my 1989 **Suzuki GSF 400 Bandit**,. An awesome ...

It revs all the way to 14.000 RPM making about 50 horsepower.

It is the ultimate urban screaming machine.

The bandit 400 is perfect for short people with its tiny 76 cm seat height (30 inches)

You can redline it at every stoplight!

Drawback is that the bike is uncomfortable at highway speeds due to the seating position...

and handlebar vibration at constant high RPMs.

We usually get around 14km/l (33 MPG) and we have run out of fuel at 175 km (108 miles) once.

Which is terrible compared to modern 400cc bikes.

If you are interested in these older screaming 4 bangers I would suggest looking for good examples...

Thank you for watching, see my other videos more onboard motorcycle content.

Enjoy a few more minutes of screaming exhaust noise!
