The Celtic Lunar Zodiac

The people of Celtic Europe have watched the skies for centuries, developing their astrology into a precise & sophisticated science. To them, the movement of the Moon was just as important as the movement of the Sun because it helped to round out the picture of the personality. For further clarification, they also related the thirteen lunar months of the year to specific trees, flowers & gemstones. Our ancestors recognized the intimate relationship between the movements of the stars & the natural world. Now, Helena Paterson offers you a treasure trove of insights into Celtic mythology, herbal lore & Druidic mystery tradition. Clearly presented & beautifully illustrated with Margaret Walty's symbolic watercolors, *The Celtic Lunar Zodiac* opens up an enticing new dimension into astrological interpretation.

The Handbook of Celtic Astrology

A guide to understanding the phases of astrological Moon signs and their effects on emotions and personality

- Describes the positive and negative character-defining traits of each of the 96 Moon phase/Moon sign combinations
- Explains how to use your natal Moon's sign and phase to predict how current and approaching Moons can affect you
- Explores the universal challenges arising during each Moon phase

throughout the year and ways to honor each phase as it passes. The Moon's ever-changing phases offer a way to deepen our understanding of our natal Moon sign as well as the Moon's day-to-day influence on our emotional tides. Through its 8 phases and its wandering dance through each of the 12 signs of the Zodiac--from the Infant's Moon (the New Moon in Aries) to the Storyteller's Moon (the Full Moon in Gemini) to the Prophet's Moon (the waning Balsamic Moon in Aquarius)--the Moon shares its story in 96 different ways. Telling the stories of the heart of all 96 Moon phase and Moon sign combinations, Raven Kaldera explains the creative gifts and emotional challenges bestowed upon those born under each Moon archetype as well as how to nurture the positive traits and improve--or at least discourage--the negative ones. Exploring the influences each Moon archetype has on us as it passes, the author reveals which Moons are the most difficult, what innate qualities each Moon brings out in us, and what we can do to honor each Moon. Including evocative quotes illuminating the nature of each Moon, Kaldera shows how to use your natal Moon's astrological sign and phase to find your "hidden Moons"--the shadows cast by passing Moons--and predict how current and approaching Moons will affect you.

Our understanding of Celtic astrology is based mainly on the speculations of modern authors--mostly drawn from classical Greek and Roman writings--and suffers from many misconceptions. European astrology uses the Greek model, containing many Babylonian and Egyptian elements. But Celtic astrology (and other Indo-European astrologies) developed earlier, with relationships to Middle Eastern systems, as well as their own independent forms. This well documented study takes a fresh look at the development of Celtic astrology and the Druids' systems of cosmology, astronomy and astrology. The author analyzes commentaries found in manuscript sources from antiquity to the Middle Ages, comparing them with cosmological and astronomical lore found in Celtic cultures. Ancient constellations, calendars, deities and rituals reveal a rich worldview.

The Astrological Moon

Your Moon sign represents your emotional being, your private and intuitive self and not necessarily the face you show to the world. Your unstudied responses, moods, longings, fears and motivation are all expressed by where the Moon was at your time of birth. It's your essence - who you are on the inside, beneath your socially acceptable Sun sign. If you want to know yourself well, or are compelled to understand the people around you, the Moon offers a swell of dynamic psychological insight that unlocks the door to the authentic person within. Understanding your Moon sign gives you the tools to master your fears and better control how you respond when you feel triggered. You'll understand what attracts you in love, look your vulnerabilities in the eye, and appreciate why you act in a particular way to protect or defend yourself. The Moon's fluctuating phases and fast-moving nature reflect your dynamic inner landscape, pushing and pulling on your emotions, just as it does with the ocean's tides. Here bestselling author and astrologer, Marion Williamson reveals what your Moon sign says about you and how it interacts with your Sun sign.

In this thoughtful book, Lucy Harmer shows readers how to find the spirit animal that corresponds to their birth sign. She provides detailed descriptions of the strengths and weaknesses of each of the twelve spirit animals—for example, falcon is enthusiastic and adventurous but can be impulsive and impatient, while deer is sociable and eloquent but can be lazy and superficial. Once readers determine their spirit animal, they can better understand their relationships with family, friends, and associates. Readers can also discover those people who are part of their animal clan and the various compatibilities and incompatibilities between all the spirit animals. They will be able to uncover the hidden treasures of their personalities and their secret talents, as well as the color, plant, and totem stone corresponding to each spirit animal. For readers who want to take shamanic astrology to the next level, the book includes the first complete lunar calendar for the Northern and Southern Hemispheres to help them determine their spirit animal rising sign and discover how the moon influences their daily life.

The Zodiac Guide to Virgo

A unique and exciting new Astrology System based on a blend of Celtic Tree knowledge, ancient wisdom and modern astrology Celtic Tree and Animal Spirit Astrology is a completely new and carefully devised system of astrology linking many aspects of Celtic myth and symbolism into the modern-day zodiac. The

Celts saw trees as a link with the supernatural world. Trees provided a connection to the world of spirits and ancestors through doorways into other worlds. Celtic tree astrology is the astrology system believed to be practised by the ancient Irish, based on natural symbolism: the tree. There are a number of versions of Tree Astrology, many centred on the cycles of the moon with the year divided into the 13 lunar months established by the Druid religion. The system used in this book draws specifically on the trees of the Ogham (the Celtic Alphabet and core behind the concept of Celtic Tree Astrology) known to be native in Ireland in Celtic times. Symbols and deities drawn from Celtic myths, festivals and documents have been linked with symbols, associations and attributes of the modern-day zodiac to offer insight into psychology, spirituality and life path depending on the reader's Celtic Tree. As well as delving deeper into the meaning of each tree, this book weaves modern astrology practices, Celtic myths and festivals and known associations of animals through Celtic and other cultures into the Celtic Tree System. This combination of the author's knowledge of astrology, psychology and symbolism will take you on one of the most wondrous of all journeys: the journey of self-discovery.
