Intercultural Communication || Dialectical Approach to Intercultural Communication || Oral Com -

Intercultural Communication || Dialectical Approach to Intercultural Communication || Oral Com by Winma

Carvajal_Official 3,637 views 2 years ago 8 minutes, 35 seconds - Intercultural Communication, || Dialectical Approach to **Intercultural Communication**, || Oral **Communication**, Difference matters.

The personal-contextual dialectic highlights the connection between our personal patterns of and preferences for communicating and how various contexts influence the personal (University of Minnesota. 2016).

The differences-similarities dialectic allows us to examine how we are simultaneously similar to and different from others (University of Minnesota, 2016).

The static-dynamic dialectic suggests that culture and communication change over time yet often appear to be and are experienced as stable (University of Minnesota, 2016).

The history/past-present/future dialectic reminds us to understand that while current cultural conditions are important and that our actions now will inevitably affect our future, those conditions are not without a history (University of Minnesota. 2016).

The privileges-disadvantages dialectic captures the complex interrelation of unearned, systemic advantages and disadvantages that operate among our various identities (University of Minnesota. 2016).
