The very strange but nevertheless true story of the dark underbelly of a 1960s hippie utopia. Laurel Canyon in the 1960s and early 1970s was a magical place where a dizzying array of musical artists congregated to create much of the music that provided the soundtrack to those turbulent times. Members of bands like the

Byrds, the Doors, Buffalo Springfield, the Monkees, the Beach Boys, the Turtles, the Eagles, the Flying Burrito Brothers, Frank Zappa and the Mothers of Invention, Steppenwolf, CSN, Three Dog Night and Love, along with such singer/songwriters as Joni Mitchell, Judy Collins, James Taylor and Carole King, lived together and jammed together in the bucolic community nestled in the Hollywood Hills. But there was a dark side to that scene as well. Many didn't make it out alive, and many of those deaths remain shrouded in mystery to this day. Far more integrated into the scene than most would like to admit was a guy by the name of Charles Manson, along with his murderous entourage. Also floating about the periphery were various political operatives, up-and-coming politicians and intelligence personnel – the same sort of people who gave birth to many of the rock stars populating the canyon. And all the canyon's colorful characters – rock stars, hippies, murderers and politicians – happily coexisted alongside a covert military installation.

Two paranormal investigators turn their spotlight on the haunted history behind the scenes at the famous movie studio. Talented entrepreneur Carl Laemmle led and won the fight against Thomas Edison's filming monopoly and built Universal City out of the dirt of Hollywood. He created a place of wonder and imagination, and now, decades later, Universal Studios is filled with rumors of ghosts. Frank Stites, an aviator killed while performing stunts during the grand opening celebrations in 1915, is said to still roam the backlot. Lon Chaney, a silent film actor, plagues sound stage no. 28, while Alfred Hitchcock haunts Steven Spielberg's office. Even Lucille Ball has been spotted more than once long after her death.

Hollywood has meant many things to many people throughout its illustrious history, but nowadays, Tinseltown is best known for the three G's-Glitz, Glamour, and Ghosts. This work provides an accurate, in-depth examination and scientific evaluation of the most famous hauntings in American history as depicted in popular films and television programs. Neither a debunking book nor one written for the \"true believer\" in the paranormal, *American Hauntings* objectively scrutinizes the historic evidence behind such hugely popular films as *The Exorcist*, *The Amityville Horror*, *An American Haunting*, *The Conjuring*, and *The Haunting in Connecticut* to ascertain the accuracy of these entertainment depictions of \"true life\" hauntings. The authors then compare these popular culture accounts against the alleged real-life encounters and impartially weigh the evidence to assess whether each incident actually took place. Written by highly credentialed, recognized authorities on the paranormal and social psychology, this book contains meticulously documented, science-based information written for a broad audience, from middle and high school students and those taking introductory courses at a university level to general readers.
