Health professionals are more and more aware of the importance of saliva for oral health and well-being. As saliva secretion is steadily compromised with advancing age, it becomes a factor of concern in societies with an aging population, especially with a growing number of people who keep their own teeth. The numerous functions of saliva, like antimicrobial activity, lubrication, wound healing and its role in taste experience are only truly recognized when saliva secretion is hampered. In medical diagnostics, saliva shows its value as a safe and economical alternative to blood. This publication provides a comprehensive overview of the latest developments in salivary research by some of the world's leading experts in the field. Chapters deal with various aspects: anatomy and physiology, e.g. regeneration of salivary glands, saliva functions, e.g. its protective and rheological properties, and diagnostics and disorders, e.g. xerostomia and hypersalivation. This book is not only recommended to basic scientists working in the field of oral biology, but also to dental students, dentists and health professionals who want to know more about one of the most underestimated bodily fluids.

Daisy Fay And The Miracle Man

The State as Cultural Practice offers a fully worked out account of the authors' distinctive interpretive approach to political science. It challenges the new institutionalism, probably the most significant present-day strand in both American and British political science. It moves away from such notions as 'bringing the state back in', 'path dependency' and modernist empiricism. Instead, Bevir and Rhodes argue for an anti-foundational analysis, ethnographic and historical methods, and a decentred approach that rejects any essentialist definition of the state and espouses the idea of politics as cultural practice. The book has three aims: · to develop an anti-foundational theory of the state · to develop a new research agenda around the topics of rule, rationalities, and resistance · by exploring empirical shifts and debates about the changing nature of the state to show how anti-foundational theory leads us to see them differently. Bevir and Rhodes argue for the idea of 'the stateless state' or the state as meaning-in-action. So, the state is neither monolithic nor a causal agent. It consists solely of the contingent actions of specific individuals; of diverse beliefs about the public sphere, about authority and power, which are constructed differently in contending traditions. Continuity and change are products of people inheriting traditions and modifying them in response to dilemmas. A decentred approach explores the limits to the state and seeks to develop a more diverse view of state authority and its exercise. In short, political scientists need to bring people back in to the study of the state.

It took all of thirty seconds for two shots to bring the world of Margaret Tabaaha crashing down around her. After losing her husband in Afghanistan during the first year of Operation Enduring Freedom, her two sons were all she had left. Now they had been taken from her violently, deliberately, plunging her into a whiskey bottle and stripping away her reason for living. When Arthur Nakai receives a call from his first love, Margaret, her voice pleading for his help, it comes as he is attending a wake for one of the men he considered a brother from his days in the Marines 6th LAR Wolf Pack Battalion. Feeling a deep and responsible obligation to help her, Arthur soon finds himself involved in the multi-billion-dollar world of the oil and gas industry and coming face-to-face with an old adversary, Elias Dayton. Their paths had crossed when Arthur was a member of the Shadow Wolves, an elite tactical unit within US Customs and Border Protection. Now Dayton runs Patriot Security, a Blackwater-type firm that keeps the oil rigs, gas wells, and man camps secure from the Water Protectors, protesters pushing to stop the fracking and poisoning of Native lands. As Arthur works through the case from his end, Navajo police chief Jake Bilagody tackles it from another angle, looking into the strained relationship between the oil company and the Navajo people, all while searching for a missing Navajo man that may have become an unwilling piece on the reservation checkerboard. But when Arthur learns the identity of the boys' killer, he struggles to make sense of it. Because if the clues are right, he will be forced to make a decision that will haunt him for the rest of his life.

the Clinton administration. Kirkpatrick questions when, how, and why the United States should resort to military solutions—especially in light of the George W. Bush administration's challenging war in Iraq, about which Kirkpatrick shares her "grave reservations" for the first time.
